

Charging Pad INDUCTIVECHARGER

[Download Instructions](#)

IC2B

Next generation charging technology for smart phones is now available. It has been designed to charge Qi-enabled devices using Energizer inductive sleeves and covers or watch for Qi technology to be included in your next smart phone. This allows you to charge without cords and cables. It has dual charging zones allowing you to charge two devices simultaneously, and it has an additional USB charging port for non-inductive charging of a third device. Our charging zones have a special technology that allows for easy placement of devices. There are no magnets or need for precise alignment.

SIMPLE AND CONVINIENT

- Drop and Charge
- Non-Critical Alignment
- Charge up to 3 Devices

Qi INDUCTIVE TECHNOLOGY

- The Standard for Inductive Charging
- Coming to Other Devices
- Supported by a Consortium of >50 Companies

WORKS WITH...

- iPhone 4G Inductive Charging Sleeve
- More Adapters and Devices Coming Soon

Before Using Your Charger:
Please read all instructions and cautionary markings on the package and charger

Product Detail:

Designation: 2 Position Qi Inductive Charging Pad with one additional USB charging port

Model: IC2B

Color: Black

Inductive Technology Certified Qi low power standard by the Wireless Power Consortium
www.wirelesspowerconsortium.com

Inductive Compatibility: Works with all other Qi low power inductive receivers (see the list on the WPC's website coming soon)

USB Output: 5.0 V \pm 5%, 500mA (D+/D- Shorted)

Charging Pad Input: DC 9V, 2.3A

AC Adapter Input: 100-240VAC 50/60Hz

AC Adapter Output: 9VDC, 2.3A

Typical Weight: Charging Pad: 345 grams

Dimensions (mm): 24(H) x 185(L) x 202(W)

Operating Temperature: 0-35°C
